Summary:	I asked Nasser to clarify his response to item c of my e-mail dated 10/8/05, requesting manufacturer(s), model number(s), and total possession limit for 35.500 sources. [License has listed 35.500 since 1987, first amendment after Part 35 changed from defining Groups to 35.100, 35.200, etc. NRC's files do not show any indication of specific 35.500 sources possessed by licensee, either under the 1986 definition or the 2002 definition.] Nasser examined his historical inventory records and said licensee has never possessed sources under 35.500, under either the 1986 definition or the 2002 definition.
Action Required:	Issue amendment, removing authorization for 35.500.
