Another organization that I forgot to list is the Pinelands Preservation Alliance. The contact person there is Jaclyn Rhoads, Director for Conservation Policy, 609 859 8860 x18 jaclyn@pinelandsalliance.org

Best,
Suzanne

Suzanne, Thanks for the information. We will definitely get in contact with these organizations. I enjoyed talking with you on Tuesday. I appreciate all that you have done for Barnegate Bay.

Michael,

It was good meeting you last night. To follow up with you, included below are the organizations doing research and advocacy work on Oyster Creek's water permit. Clean Ocean Action, Save Barnegat Bay and the Jersey Coast Angler's Association do not have positions on Oyster Creek's license extension specifically but they all have the same position on the plant's water permit-which is that the plant should be required to install a closed-cycle cooling system.

Nicole Simmons, Policy Advocate and Cindy Zipf, Executive Director--Clean Ocean Action 732-872-0111 policy@cleanoceanaction.org
zipf@cleanoceanaction.org

Tom Fote, President, Jersey Coast Angler's Association 732-506-6565
tfote@jcaa.org

William DeCamp, President, Save Barnegat Bay 732-830-3600 wmdecamp@cs.com

Julia LeMense Huff, Visiting Assistant Clinical Professor of Law, Rutgers
Environmental Law Clinic 973-353-5695 juliahuff@yahoo.com

Kelly McNicholas, Program Coordinator, NJ Sierra Club, 609-656-7612
kelly.mcnicholas@sierraclub.org

Peggy Sturmfels, Central Jersey Organizer, New Jersey Environmental
Federation 732-280-8988 psturmfels@cleanwater.org

I hope this is helpful; please reach out to these folks for formal comment.
In addition, my written comments will be more detailed then last night.

Best,

Suzanne
