

UNITED STATES
NUCLEAR REGULATORY COMMISSION
REGION IV
611 RYAN PLAZA DRIVE, SUITE 400
ARLINGTON, TEXAS 76011-4005

November 3, 2005

Mr. Kenneth Wangler
Radiation Control Program
North Dakota Department of Health
P.O. Box 5520
Bismarck, ND 58506-5520

Dear Mr. Wangler:

In order to help both Agreement States and the U.S. Nuclear Regulatory Commission (NRC) remain knowledgeable of each others' programs and to conduct planning for the next Integrated Materials Performance Evaluation Program (IMPEP) review, the IMPEP process includes holding one-day periodic meetings with Agreement States between IMPEP reviews. In accordance with the Office of State and Tribal Programs (STP) Procedure SA-116, we request a meeting, no longer than one day, to discuss your Agreement State Program and share programmatic information.

This letter confirms that, after previous coordination, the meeting is scheduled for Tuesday, December 6, 2005, and will be held in your offices. Ms. Cardelia Maupin, Office of State and Tribal Programs, assigned as Project Officer for North Dakota, will be the other NRC representative who will be participating by phone. Based on our previous discussions the likely topics for discussion at the meeting are listed on the enclosed agenda.

If there are any additional specific topics you would like to cover, or if you would like to focus on a specific area, please let me know. If you have any questions, please call me at 817-860-8143, or e-mail to vhc@nrc.gov.

Sincerely,

/RA/

Vivian H. Campbell
Regional State Agreements Officer
Region IV

ENCLOSURE

Periodic Meeting Agenda December 6, 2005

1. Status of State's actions to address all open previous IMPEP review findings and/or open recommendations.
2. Strengths and/or weaknesses of the State program as identified by the State or NRC including identification of actions that could diminish weaknesses.
3. Feedback on NRC's program as identified by the State and including identification of any action that should be considered by NRC.
4. Status of State Program including:
 - a. Staffing and training:
 - i) Number of staff in the program and status of their training and qualifications;
 - ii) Program vacancies;
 - iii) Staff turnover;
 - iv) Adequacy of FTEs for the materials program.
 - b. Materials Inspection Program:
 - i) Discuss the status of the inspection program including if an inspection backlog exists and the steps being taken to work off backlog.
 - c. Regulations and Legislative changes:
 - i) Discuss status of State's regulations and actions to keep regulations up to date, including the use of legally binding requirements.
 - d. Program reorganizations:
 - i) Discuss any changes in program organization including program/staff relocations and new appointments.
 - e. Changes in Program budget/funding.
5. Event Reporting, including follow-up and closure information in NMED.
6. Response to Incidents and Allegations:
 - a. Status of allegations and concerns referred by the NRC for action;
 - b. Significant events and generic implications.
7. Information exchange and discussion:
 - a. Current State initiatives;
 - b. Emerging technologies;

- c. Large, complicated or unusual authorizations for use of radioactive materials, including, (e.g., major decommissioning and license termination actions)
 - d. State's mechanisms to evaluate performance (as applicable):
 - i) Self audits;
 - ii) Computer tracking;
 - iii) Inspector accompaniments;
 - iv) Other management tools.
 - e. NRC current initiatives.
8. Other
9. Schedule for the next IMPEP review.
