Subject: (NOTE: This will be used as the Documents Title in ADAMS)	Status Update on Tritium Sealed Source	
Summary:	<p>I spoke with Mr. Loizzo about the missing tritium source. He stated that he has replaced Michael O'Brien as the manager of the QHEC for EMR Schlumberger (Princeton Technology Center). Mr. Loizzo informed me that the source was manufactured by EMR Photoelectric, was model no. 758, and the serial number of the source was 9621. As of 9/14, he was unaware of the source being recovered. A letter was received from the lawyers from Federal Express (Ground) stating the company had examined all of its facilities without locating the source and considered the case closed.</p> <p>I tried to contact Raymond Dickus at 281-285-8775 and left a message on his voice-mail to get back in touch with me concerning the efforts in Texas to locate the source.</p> <p>10/28/2005 Mr. Dickus left a message on my voice-mail. As of 10/28, Federal Express (Ground) has been uncooperative about allowing personnel onto the Texas facilities. The neutron pulse generator has not been located. Efforts are continuing, with the help of the State of Texas, to gain access to the sites.</p>
