RE: Amendment Application
Coastal Cardiovascular Consultants, PA
License Number: 29-30743-01 03036052

Dear License Reviewer:

Please amend the above reference byproduct material license to add Hojun Yoo, M.D. as an authorized user for all materials approved on our current license. Dr. Yoo has completed 200 hours of academic and 1,000 hours of clinical training. Documentation attesting to his training has been enclosed within Attachment A. Please refer to this section for details.

In addition, we request that Ahmad Salloum, M.D. be named as the radiation safety officer. Dr. Salloum will replace Dr. White in this capacity. Dr. Salloum is currently listed on our byproduct material license as an authorized user. Please refer to this document for details. At times where Dr. Salloum is not immediately available (ex: vacations or conferences), Dr. White will act as the acting radiation safety officer. If there are periods where both Dr. Salloum and Dr. White are not available, Dr. Yoo will act as the acting radiation safety officer.

Dr. White will remain on the license as the administrative representative and authorized user.

If you require additional information, please contact Michael W. Lairmore or myself. Mr. Lairmore may be reached at 201-693-2277.

We thank you in advance for your assistance with this licensing action.

Sincerely,

Thomas White, D.O.

RE: DR. HOJUN YOO

To Whom It May Concern:

This letter is to certify that Dr. Hojun Yoo has gained clinical and technical expertise in Nuclear Cardiology at Robert Wood Johnson University Hospital and at Deborah Heart and Lung Center in New Jersey.

At Robert Wood Johnson University Hospital this experience was gained during his cardiology fellowship dating from July 1998 through June 2001. During this time Dr. Yoo has been active in the performance and interpretation of multiple nuclear cardiology imaging procedures. These procedures include exercise and pharmacologic stress, resting and redistribution myocardial examinations employing thallium as well as technetium-based agents, blood pool imaging as well as infarct avid imaging.

During his rotation at Robert Wood Johnson University Hospital he has spent ten weeks in formal non-invasive nuclear cardiology/stress imaging rotation, two weeks in Nuclear Medicine rotation, as well as correlation of nuclear cardiology procedures while on his clinical rotations. Dr. Yoo's exposure to nuclear cardiology also included didactic monthly conferences, case presentations, and clinical conferences during his cardiology fellowship. He has been involved in greater than 530 nuclear cardiology procedures with computer analysis. During his rotation through the Nuclear Medicine Department and clinical rotation he has gained experience in quality control/assurance, dose calibration and survey meters, administration of radiopharmaceuticals, computer processing, radiation safety, as well as general operation of our facility in compliance with NRC regulations. Dr. Yoo has accrued an excess of 500 hours of clinical and technical expertise in nuclear medicine at our facility.

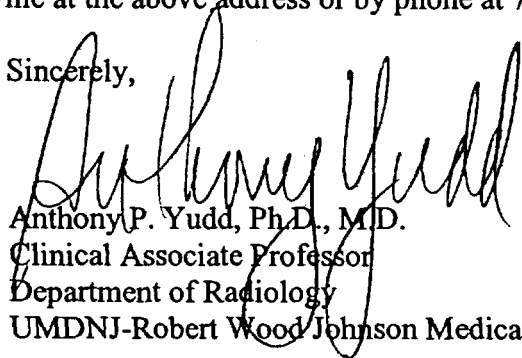

June 21, 2001
RE: Dr. Hojun Yoo
Page 2

In addition to his experience at Robert Wood Johnson University Hospital he has also gained experience at Deborah Heart and Lung Center. A copy of a letter from Dr. Frank Lumia from Deborah Heart and Lung Center is attached. In the fifth paragraph of this letter Dr. Lumia states that Dr. Yoo has spent four months reviewing a total of 271 nuclear cardiology procedures. Dr. Lumia would credit him with accruing a total of 666 hours of technical and clinical experience expertise in Nuclear Cardiology.

Dr. Yoo's experience at Robert Wood Johnson University Hospital as well as at the Deborah Heart and Lung Center would be in excess of the 1000 hours of clinical and work experience required for licensure by the NRC.

If I can provide any further information regarding Dr. Yoo's training, you may contact me at the above address or by phone at 732-937-8612 or 732-235-7721.

Sincerely,

Anthony P. Yudd, Ph.D., M.D.
Clinical Associate Professor
Department of Radiology
UMDNJ-Robert Wood Johnson Medical School

Chief, Division of Nuclear Medicine
Robert Wood Johnson University Hospital
