Kewaunee, WI 54216-9511

SUBJECT: KEWAUNEE POWER STATION - CORRECTION TO AMENDMENT NO. 186  
(TAC NO. MC5900)

Dear Mr. Gaffney

On October 4, 2005, the U.S. Nuclear Regulatory Commission issued Amendment No. 186 to Facility Operating License No. DPR-43 for the Kewaunee Power Station. The amendment revised Technical Specification (TS) 6.16.b.1, "Radioactive Effluent Controls Program," and TS 6.18, "Off-site Dose Calculation Manual (ODCM)," to be consistent with Title 10 of the *Code of Federal Regulations* (10 CFR) Part 20 and NUREG-1431, "Standard Technical Specifications Westinghouse Plants" in response to your application dated February 3, 2005.

Due to an administrative error, TS page 6.16-2 needs to be corrected. The amendment added new requirements to TS page 6.16-2, and this caused existing TS requirements 6.16.b.2 B and C to no longer fit on TS page 6.16-2. As a result of this pagination error we are issuing a new TS page 6.16.3 which will contain existing TS requirements 6.16.b.2.B and C. Enclosed is the new TS page 6.16.3. We apologize for any inconvenience this may have caused.

Sincerely,

/RA/

David H. Jaffe, Project Manager  
Plant Licensing Branch III-1  
Division of Operating Reactor Licensing  
Office of Nuclear Reactor Regulation

Docket No. 50-305

Enclosure: As stated
