

November 17, 2005

Dennis P. O'Dowd, Chief  
Radiological Health Bureau  
Department of Health and Human Services  
29 Hazen Drive  
Concord, NH 03301-6504

Dear Mr. O'Dowd:

We have reviewed the New Hampshire commitment to implement increased controls for certain licensees that possess certain radioactive materials in quantities of concern, received by our office on November 14, 2005. This commitment noted that New Hampshire will use a license condition identical to that provided by the Organization of Agreement States, Inc. (OAS) on September 6, 2005. The OAS suggested license condition was reviewed by comparison to the equivalent NRC requirements that were transmitted from this office on September 2, 2005. We discussed our review of the license condition with you on November 15, 2005.

We have determined that the proposed New Hampshire license condition, if issued without significant change, would meet the compatibility category 'B' designation in NRC Order EA-05-090.

We appreciate receiving the final license condition issued to effected New Hampshire licensees.

The SRS Data Sheet summarizes our knowledge of the status of other New Hampshire regulations and legal binding requirements, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, will be posted on the STP website:  
<http://www.hrsd.ornl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the review, the compatibility categories, or any of the NRC requirements used in the review, please contact Mr. Andrew Mauer of my staff at 301-415-3962 or e-mail: [anm@nrc.gov](mailto:anm@nrc.gov).

Sincerely,

***IRA By KNSchneider For***
