SUBJECT: CONFIRMATION OF ENFORCEMENT CONFERENCE

Dear Mr. Junkrans:

This confirms the arrangements made between Mr. R. W. Sharkey of your staff and Mr. Jerome Roth of this office regarding an enforcement conference to be conducted at the Nuclear Regulatory Commission Headquarters at 2:00 p.m. on September 28, 1994.

Information concerning this meeting was conveyed to you in the cover letter of Inspection Report No. 70-36/94-202 dated September 8, 1994. In that letter, the NRC expressed its concern with the violations and other program weaknesses identified during the material control and accounting (MC&A) inspection conducted during July 14-18, 1994. The violations and program weaknesses appear to indicate a lack of management control and oversight of your physical inventory process.

Please be prepared to discuss the results of the last MC&A inspection, your plans for corrective actions regarding the identified issues, and your overall plans for improving your licensed program.

Should you have any questions concerning this meeting, please contact us.

Sincerely,
