Subject: Request for Amendment to License No. 15-13753-01

To Whom It May Concern:

We would like to request an amendment to Materials License No. 15-13753-01. Our Radiation Safety Officer of record has left the agency and we have established an acting Radiation Safety Officer until we can designate a permanent replacement. Garianne E. Howard has been appointed to that position. It is our understanding that conditions 11.A and 11.B will be affected by this amendment. Therefore, please amend the license to change any reference to Stephen Chambers with Garianne E. Howard.

Mrs. Howard is qualified by education and experience to perform the duties of acting radiation safety officer. She has been the Alternate Radiation Safety Officer since 1995. Her duties have been to develop the radiation safety program and radiation safety manual for the region. She has been administering the personnel monitoring for the region. And she participated in the development of a national On-Scene Coordinator Radiation Health and Safety Implementation Program for the Environmental Protection Agency's emergency responders and removal managers. She has been with the agency since 1991. She received her Bachelors of Science degree in Nuclear Engineering.

Thank you in advance for your prompt consideration of this matter. We look forward to your reply.

Sincerely,

William A. Spratlin, Director
Air, RCRA, and Toxics Division
