To: Norman Schulman, M.D., RSO

Please provide one additional piece of information regarding your request to amend your NRC license to add Yibing Hu as authorized medical physicist.

10 CFR 35.51(b)(1)(i) requires that the supervised training and experience for an authorized medical physicist include performance of sealed source leak tests and inventories. Please ask Tianyou Xue, Ph.D. to provide documentation that Yibing Hu has training and/or experience in these tasks. If Mr. Hu does not already have this training and because these tasks may not be necessary in your small HDR program, Mr. Hu may need to receive this training at another facility.

Dr. Xue may provide this documentation to me by fax, under his signature, at 610-337-5269, referencing mail control 137953.

You may wish to leave a voicemail or e-mail message to alert me when the fax is sent.

Please send an e-mail to confirm receipt of this message.

Thank you for your help. If you have any questions, you may e-mail me or call at 610-337-5182.
