Index of Letters - Westinghouse to NRC and/or NJDEP
Regarding Bloomfield Remediation Project

11/26/86

- Letter to NJDEP providing radiological survey report.

7/27/88

- Letter from NJDEP approving interior radiological Cleanup Plan, and requesting more detail on exterior Cleanup Plan.

12/6/88

- Letter to NJDEP providing copies of NRC License Application for decommissioning, citing plans, and cleanup criteria. Includes survey report.

2/3/89

- Letter from NRC containing the material license, guidelines for decontamination and the release criteria.

8/1/89

- Letter to NJDEP providing more detailed exterior Cleanup Plan, including release criteria and schedule.

10/27/89

- Letter to NJDEP giving radiological interior cleanup status and notice that Westinghouse is prepared to begin exterior cleanup, indicating NJDEP has no objections to proceeding.

10/30/89

- Letter to NJDEP giving notification that Westinghouse is proceeding with exterior cleanup.

11/10/89

- Letter to NRC requesting release of certain Building 2, 6, 7, and garaga portions.

12/5/89

- Letter from NRC releasing Building 7 roof.

5/90

- Canberra's decontamination confirmatory survey of the garage and Buildings 1-6.

5/17/90

- FAX from NJDEP to Tim Basilone to document the discussion of a May 10, 1990 meeting.

5/25/90

- Letter sent to NRC's John Kinneman with the results of the decontamination of Buildings 1-6 and the garage, and requesting the NRC release these areas from the license. Note! Cover letter missing.

7/27/90

- Letter to John DeFina, NJDEP, regarding the work plans.

12/18/90

- Letter from Canberra to NRC regarding Canberra's surveying methodology.

12/27/90

- Letter to ORAU from Canberra regarding the remediated areas.

1/28/91

- Letter from NRC discussing our request to release Buildings 1-6 and the garage and the associated fees.

4/29/91

- Letter from NRC regarding the ORAU survey of 3/91 and requesting additional information. Note! Cover letter missing.

9/23/91

- Letter to NRC providing confirmatory measurements, results of additional remediation, and additional information as requested with regard to Buildings 1-6.

2/2/92

- Letter to NRC confirming Mark Roberts will visit the site within 1st quarter '92 to perform a final resurvey of Buildings 1-6.

3/24/92

- FAX to NRC to remind Mark Roberts of the need to perform final survey of Buildings 1-6.

6/15/92

- Letter from NRC regarding ORAU radiological survey of the garage, Buildings 1-6 and 11.

6/18/92

- Letter from NRC requesting additional information regarding Buildings 1-6 and the garage.

7/20/92

- Letter to NRC in reference to their June 18, 1992 letter.

*August 1992

- Letter to NRC requesting release for unrestricted use Buildings 7, 8, 9 and 10A. Included also is the Canberra survey results.

8/21/92

- Letter to NRC regarding and including the confirmatory survey of Buildings 7, 8 and 9.

*8/25/92

- Letter to NRC regarding the assessment of risk relative to radioactivity remaining in the basement of Building 7.

9/23/92

- Letter to NRC regarding the disposition of the radiological waste.

10/28/92

- Letter from NRC requesting additional information regarding Westinghouse letter of

August 1992 requesting release for Buildings 7, 8 and 9.

*12/4/92

- Letter to NRC in response to their letter of 10/28/92 requesting additional information regarding decontamination confirmation survey for Buildings 7, 8 and 9. Note! Dr. Arnold Gray cc cover letter only.

*4/13/93

- Response to NRC letter of October 28, 1993 from Canberra Industries.

4/27/93

- Letter from Canberra to B. Bowman/NRC regarding figures 1-20 from survey report.

5/25/93

- Letter from NRC releasing for unrestricted use Buildings 1-6, garage and surrounding areas, the amended license and a safety evaluation report justifying the release. Note! NRC cc to Robert Stern, NJ Chief Bureau of Environmental Radiation.

6/1/93

- Letter to Dr. Arnold Gray, NJDEP, with a copy of the NRC 5/25/93 letter releasing Buildings 1-6, etc.

*7/26/93

- Letter from NRC in reference to (W) letter of 8/25/92. The NRC is requesting additional information regarding the radiological risk assessment for the basement of Building 7.

8/25/93

- Letter from NRC containing the ORISC survey results of Buildings 7, 8, 9 and 10A.

*9/17/93

- Letter from NRC regarding the ORISE survey results of Buildings 7, 8, 9 and 10A and the need to perform additional remediation. They also requested (W) develop a decommissioning plan using the guidance in Draft NUREG/CR-5849, Manual for

Conducting Radiological Surveys in Support of License Terminations, June 1992.

•10/6/93

- Letter from Canberra with a response from the NRC where they were responding to a Canberra Industries' letter of 9/3/92 regarding risk assessment.

11/1/93

- Letter from NRC notifying (W) that our NRC license No. SMB-1527 would expire on February 28, 1994.

12/20/93

- Letter to Stephen Myers, NJDEP, regarding the plans to demolish Buildings 6 and 9.

12/21/93

- Letter to NRC requesting License No. SMB-1527 be extended to November 30, 1994.

1/26/94

- Letter to NRC notifying them of our plans to perform a partial demolition of Buildings 9 and 10A to minimize the health and safety risk. Also included were the demolition plan and survey procedures.

2/3/94

- Letter from NRC indicating License No. SMB-1527 will not expire until final action has been taken by the NRC office.

2/21/94

- Letter to NRC in response to the NRC letter of 9/17/93. Included was final survey plan for Buildings 7, 8, 9 and 10A.

3/25/94

- Letter from NRC in reference to the (W) letters of 1/26/94 and 2/21/94. The NRC had comments on these letters and requested additional information.

4/20/94

- Letter from NRC regarding a routine safety inspection at the Bloomfield, NJ facility on 4/5/94. These were no violations identified. Note! cc sent to Public Document Room, Nuclear Safety Information Center, NJ.

4/27/94

- Letter to NRC in reference to NRC letter of 5/25 regarding the request for additional information regarding Buildings 7, 8, 9 and 10A.

5/24/94

- Letter to NRC describing the demolition of Buildings 9 and 10A and the protocol for free release of the upper structure.
