Dear Mr. Warren:

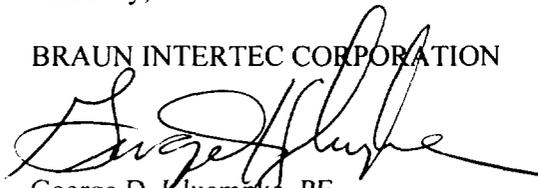

Re: NRC Special Inspection Report # 030-21059/05-003 (DNMS)

This letter is in response to findings resulting from your Inspection on October 17, and 18, 2005. I have reviewed your report and notice of violation dated November 18, 2005. I have also spoken with Greg Ebeling our RSO along with Marv Denne our NDE Services Manager regarding your findings. Together they have assured me that the corrective actions taken will prevent this type of incident from reoccurring in the future. We at Braun Intertec take safety and compliance issues very seriously and we are constantly striving to further imbed them in our companies culture.

Please call me @ (952) 995-2080 if you have any questions or need any additional information.

Sincerely,

BRAUN INTERTEC CORPORATION
