In the Matter of  
Dominion Nuclear Connecticut, Inc.  
(Millstone Nuclear Power Station, Units 2 and 3)  
Docket Nos. 50-336-LR and 50-423-LR

Dear Ms. Vietti-Cook:

On November 25, 2005, the Connecticut Coalition Against Millstone ("CCAM") filed a "Motion to Reopen" the Millstone license renewal proceeding. The caption of the "Motion to Reopen" indicates that the motion is filed before the Atomic Safety and Licensing Board. However, all adjudicatory proceedings before the Atomic Safety and Licensing Board and Commission have been terminated. Dominion Nuclear Connecticut, Inc. (Millstone Nuclear Power Station, Units 2 and 3), CLI-04-36, 60 N.R.C. 631, 645 (2004); Dominion Nuclear Connecticut, Inc. (Millstone Nuclear Power Station, Units 2 and 3), CLI-05-24, 62 N.R.C. \_\_\_, slip op. at 22 (Oct. 26, 2005). In fact, the renewed licenses for the Millstone units were issued yesterday. Consequently, the Atomic Safety and Licensing Board no longer has jurisdiction to entertain this motion. Further, CCAM does not proffer any proposed contention, does not address the standards required for a late filing (see 10 C.F.R. §§ 2.309(c), (f)(2)), and focuses on a radiological issue that is beyond the scope of a license renewal proceeding (see Florida Power & Light Co. (Turkey Point Nuclear Generating Plant, Units 3 and 4), CLI-01-17, 54 N.R.C. 3, 15-19 (2001)). Finally, the allegations of fraud, deceit and cover-up by the NRC Staff, upon which CCAM's motion is premised, are scurrilous. For all these reasons, CCAM's motion should be rejected and returned to CCAM.

Sincerely,

David R. Lewis  
Counsel for Dominion Nuclear Connecticut, Inc.
