Rockville, MD 20852

SUBJECT: Transnuclear's (TN's) Near Term and Long Term Licensing Plans

Dear Mr. Sebrosky:

Consistent with the guidance provided in RIS 2005-27, enclosed herewith is a schedule of TN's near term licensing plans (Table 1) and long term licensing plans (Table 2).

Please note that a licensee currently plans to load fuel in the proposed NUHOMS®-61BTH DSC in the summer of 2006. To support this client's needs, TN is splitting the proposed CoC 1004 Amendment 9 as shown in Table 1, with a planned submittal in early January, 2006. In addition, CoC 1004 is also being amended to accommodate a longer version of NUHOMS®-32PTH DSC (currently under NRC review, Docket 72-1030), designated as NUHOMS®-32PTH1 DSC, with a planned submittal in late March 2006.

These licensing plans are proprietary in nature and in accordance with 10 CFR 2.390(b), an affidavit is provided specifically requesting that you withhold this information from public disclosure.

We look forward to further discussion of our licensing plans with the NRC. Please contact me at 510-744-6053 or Mr. Jayant Bondre at 410-910-6881 if you have any questions or require further clarification.

Sincerely,

U. B. Chopra
Licensing Manager

Attachments: 1. TN's Near Term and Long Term Licensing Plans (Proprietary).
2. Affidavit for Withholding Proprietary Information.
