Subject: LES APPLICATION - STAFF'S ACCEPTANCE

I have been informed that the staff only intends to:

- (1) send an acceptance letter (not a notice) to LES (letter will be public)
 - (2) issue a notice scheduling an EIS scoping meeting in New Mexico (This is the staff notice I was told about and I mentioned at the EA meeting today but I was told third hand it was an acceptance notice.)
- The staff does not intend to publish a notice of acceptance/docketing but will rely on the Commission's order for that purpose. Thus, we can retain as is the titles and descriptions in the orders that you have in hand.
