

LICENSE FOR INDEPENDENT STORAGE OF SPENT NUCLEAR FUEL AND HIGH-LEVEL RADIOACTIVE WASTE

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974 (Public Law 93-438), and Title 10, Code of Federal Regulations, Chapter 1, Part 72, and in reliance on statements and representations heretofore made by the licensee, a license is hereby issued authorizing the licensee to receive, acquire, and possess the power reactor spent fuel and other radioactive materials associated with spent fuel storage designated below; to use such material for the purpose(s) and at the place(s) designated below; and to deliver or transfer such material to persons authorized to receive it in accordance with the regulations of the applicable Part(s). This license shall be deemed to contain the conditions specified in Section 183 of the Atomic Energy Act of 1954, as amended, and is subject to all applicable rules, regulations, and orders of the Nuclear Regulatory Commission now or hereafter in effect and to any conditions specified herein.

Licensee	
1. Virginia Electric and Power Company 5000 Dominion Boulevard Glen Allen, Virginia 23060	3. License No. SNM-2507 Amendment No. 3
2. Old Dominion Electric Cooperative 4201 Dominion Boulevard Glen Allen, Virginia 23060	4. Expiration Date June 30, 2018
	5. Docket or Reference No. 72-16

6. Byproduct, Source, and/or Special Nuclear Material

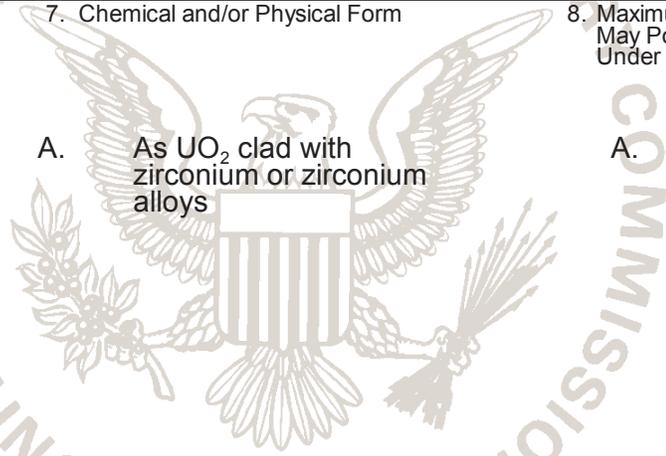

7. Chemical and/or Physical Form

8. Maximum Amount That Licensee May Possess at Any One Time Under This License

A. Spent Fuel Assemblies from North Anna Unit 1 & 2 reactors (using) natural water for cooling and associated radioactive materials related to receipt, storage, and transfer of the fuel assemblies

A. As UO_2 clad with zirconium or zirconium alloys

A. 839.04 TeU of spent fuel assemblies

9. Authorized Use: For use in accordance with the conditions in this license and the attached Technical Specifications. The basis for this license was submitted in the North Anna ISFSI Safety Analysis Report (SAR) application dated May 9, 1995, as supplemented May 25, June 8, and July 18, 1995; March 14, 1996; April 14, September 11, October 2, October 9, November 24, December 10, and December 16, 1997; January 23, January 28, January 29 (two letters), January 30, February 17, April 1 (two letters), April 13 (two letters), April 23, April 29, May 18, May 28 (four letters), May 29 and June 19, 1998; April 5, August 27, 1999, May 28, 2002, January 23, April 4, and May 21, 2003; and September 15, 2004.

The material identified in 6.A and 7.A above is authorized for receipt, possession, storage, and transfer. Storage is authorized only in cask of the TN-32 design as described in the SAR.

10. Authorized Place of Use: The licensed material is to be received, possessed, transferred, and stored at the North Anna ISFSI located on the North Anna Power Station site in Louisa County, Virginia, near Mineral, Virginia, as described in the SAR.

11. The Technical Specifications contained in Appendix A attached hereto are incorporated into the license. The licensee shall operate the installation in accordance with the Technical Specifications in Appendix A. Appendix A contains Technical Specifications related to Environmental Protection.

License No. SNM-2507	Amendment No. 3
Docket or Reference No. 72-16	

**LICENSE FOR INDEPENDENT STORAGE OF SPENT NUCLEAR
FUEL AND HIGH-LEVEL RADIOACTIVE WASTE
SUPPLEMENTARY SHEET**

12. The licensee shall fully implement and maintain in effect all provisions of the ISFSI physical security, guard training and qualification, and safeguards contingency plans and all amendments made pursuant to the authority of 10 CFR 72.56, 10 CFR 72.44(e), and 10 CFR 72.186. The plans, which contain safeguards information protected under 10 CFR 73.21, are entitled: North Anna Power Station, Independent Spent Fuel Storage Installation Physical Security Plan, Revision 3, dated January 29, 1998 and Nuclear Security Personnel Training and Qualification Plan for Surry and North Anna Power Stations, dated October 2, 1997. Changes to these plan revisions shall be made in accordance with 10 CFR 72.186.
13. The Commission's finding that the Quality Assurance Program complies with the requirements of Subpart G is based on the existence of a Quality Assurance Program accepted by the Commission as satisfying the requirements of 10 CFR 50, Appendix B. Prior to termination of the Part 50 license for both North Anna Power Station Units 1 and 2, the licensee must submit for Commission approval, a Quality Assurance program for the ISFSI that addresses and satisfies each of the elements of Subpart G.
14. The Commission's finding that the Emergency Plan complies with the requirements of 10 CFR 72.32 is based on the existence of an Emergency Plan accepted by the Commission as satisfying the requirements of 10 CFR 50.47 and 10 CFR 50, Appendix E. Prior to termination of the Part 50 license for both North Anna Power Station Units 1 and 2, the licensee must submit, for Commission approval, an Emergency Plan for the ISFSI that addresses and satisfies each of the elements of 10 CFR 72.32
15. The design, construction, and operation of the ISFSI shall be accomplished in accordance with the U.S. Nuclear Regulatory Commission Regulations specified in Title 10 of the U.S. Code of Federal Regulations. All commitments to applicable NRC Regulatory Guides and to engineering and construction codes shall be carried out.
16. Fuel and cask movement and handling activities that are to be performed in the North Anna Fuel and Decontamination Buildings will be governed by the requirements of the North Anna Power Station, Units 1 and 2, Facility Operating Licenses (NPF-4 and NPF-7) and associated Technical Specifications.
17. Pursuant to 10 CFR 72.7, the licensee is hereby exempted from the provisions of 10 CFR 72.124(b) with respect to providing positive means to verify the continued efficacy of the solid neutron absorbing materials. The licensee is also exempted from the requirements of 10 CFR 72.44(d)(3) with respect to the submittal dates for reports of radio nuclide effluent releases. The licensee must submit the report required by 10 CFR 72.44(d)(3) for the previous calendar year by May 1 of each year. All other requirements of 10 CFR 72.44(d)(3) must be met. The licensee is exempted from the requirements of 10 CFR 72.72(d) with respect to duplicate storage of spent fuel storage records. The licensee may maintain records of spent fuel and high level radioactive waste in storage either in duplicate as required by 72.72(d) or, alternatively, a single set of records may be maintained at a records storage facility that satisfies the standards of ANSI N45.2.9-1974. All other requirements of 10 CFR 72.72(d) must be met.
18. This license is effective as of the date of issuance shown below.
