Dear Mr. Nussbaumer:

In accordance with our policy we wish to inform you that Mr. Fred G. Stengel has accepted the position of Chemical Operations Manager, Fuels Division as described in the attached letter. Mr. Stengel is responsible for operations at Hematite, Missouri and at the Fuels Recovery Plant, Charlestown, Rhode Island. He reports directly to Mr. J. A. Lindberg, Vice President, Fuels Division.

A brief resume in the same format used in our Special Nuclear Materials Licenses 33 and 777 is also included. This may be inserted in the sections of those licenses describing the qualifications of our key technical personnel.

Very truly yours,

D. F. Cronin

January 29, 1965

To: All Employees
Subject: Organization Change

Effective February 1, 1965, Mr. Fred G. Stengel is appointed Chemical Operations Manager, Fuels Division. In this position Mr. Stengel will be responsible for operations at Hematite, Missouri and operations at the Fuels Recovery Plant, Charlestown, Rhode Island. He will report to the Vice President, Fuels Division.

Mr. Stengel was previously employed by General Atomics in San Diego, California, where he held the position of Manager of Manufacturing Engineering. His previous experience also includes responsible positions at the Bettis Atomic Power Laboratory.

Mr. Robert G. Johnson will return to his previous position as Industrial Engineering Manager, Fuels Division, on the same date. Mr. Tom Shea will continue in his position as Superintendent Industrial Engineering.

Your cooperation with Mr. Johnson and Mr. Shea in their interim appointments is gratifying, and your continued support of the men involved is appreciated.

J. A. Lindberg
