Dear Steve,

I am attempting to determine the license status of the Sweetwater Uranium Mill in Wyoming. I have queried the ADAMS document retrieval system at NRC to determine if the permit has been renewed by your agency. Following is a website that states the license was renewed for 10 years on May 26, 2005

*I am trying to confirm if the license was indeed renewed. I appreciate any help you can offer on this matter.*

Sincerely,  
Scott Kinderwater
