**Reference:** Radioactive Materials License No. 45-09087-01 03003331

Dear Mr. Perkins:

We would like to request our radioactive materials license be amended to make the following changes:

1. We would like to change the Radiation Safety Officer from David Weimer, M.S. to Sandy Wolff, M.S. Ms. Wolff is already listed as RSO on our Sentara Hospitals, Southside NRC license, No. 45-00131-02. Please reference this license for documentation of training and experience.
2. We would like to add Dr. Michael Miller to our list of authorized users for byproduct material as specified under 10 CFR 35.300 and 35.400. Please reference the attached NRC Form 313A and related documentation.
3. We would like to remove Dr. Adedamola Omogbehin, M.D. from our list of authorized users.

We would appreciate it if the processing and approval of this application could be expedited. With Dr. Omogbehin taking a position in the D.C. area and Dr. Williams being transferred to cover another Sentara facility, Dr. Miller will be the only authorized user readily available for therapies involving byproduct material.

If you should have any questions or comments regarding any of the information, please do not hesitate to contact David E. Weimer, M.S., at (757) 827-2444.

Sincerely,

Tamika Jefferson  
Director, Facilities and Patient Care Services
