RE: Combustion Engineering
 Docket No. 70-36
 License No. SNM-33

As the State Senator representing the area where Combustion Engineering is located, I would like to request a public hearing concerning the expansion as cited in the Notice in the Federal Register of May 24, 1989. I feel it is essential to establish public confidence in the safety of this operation that a public hearing be held at a place in relative proximity to the plant.
