Oyster Creek Generating Station
Facility Operating License No. DPR-16
NRC Docket No. 50-219

Subject: Oyster Creek Generating Station Security Plan, Training and Qualification Plan, and Safeguards Contingency Plan, Revision 2

In accordance with 10 CFR 50.54, "Conditions of licenses," paragraph (p)(2), AmerGen Energy Company, LLC (AmerGen) is submitting Revision 2 to the Oyster Creek Generating Station (OCGS) Security Plan. The changes to the OCGS Security Plan, Training and Qualification Plan, and Safeguards Contingency Plan were implemented on October 31, 2005. In accordance with 10 CFR 50.54(p)(2), AmerGen is submitting this change within 60 days of implementation (i.e., by December 30, 2006).

The Security Plan, Training and Qualification Plan, and Safeguards Contingency Plan have been revised to increase the minimum number of security responders by defining additional armed responders that the site maintains in order to implement the protective strategy.

AmerGen has concluded that the changes do not decrease the safeguards effectiveness of the OCGS Security Plan, Training and Qualification Plan, and Safeguards Contingency Plan.

Attachment 2 contains Safeguards Information. Therefore, AmerGen requests that this information be withheld from public disclosure in accordance with 10 CFR 2.390, "Public inspections, exemptions, requests for withholding," paragraph (a)(1)(i), and 10 CFR 73.21, "Requirements for the protection of safeguards information," paragraph (b)(1)(i).
