APPLICANT: Constellation Energy Group, Inc.

FACILITY: Nine Mile Point Nuclear Station, Units 1 and 2

SUBJECT: SUMMARY OF PUBLIC MEETINGS CONDUCTED TO DISCUSS THE DRAFT SUPPLEMENTAL ENVIRONMENTAL IMPACT STATEMENT RELATED TO THE REVIEW OF THE NINE MILE POINT NUCLEAR STATION, UNITS 1 AND 2, LICENSE RENEWAL APPLICATION (TAC NOS. MC3274 AND MC3275)

On Thursday, November 17, 2005, the U.S. Nuclear Regulatory Commission (NRC) staff held public meetings in Oswego, New York, concerning the staff's environmental review of the application submitted by Constellation Energy Group, Inc., (Constellation) for renewal of Nine Mile Point Nuclear Station (NMP), Units 1 and 2, operating licenses. The purpose of the meeting was to provide the public with an opportunity to comment on the draft supplemental environmental impact statement (DSEIS), which was issued September 29, 2005. The public meetings were held at the Town of Scriba Municipal Building, Conference Room, 42 Creamery Road, Oswego, New York. Formal presentations were made by staff from NRC and the Lawrence Livermore National Laboratory (LLNL).

The DSEIS is a plant-specific supplement for NMP to the "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (NUREG-1437). The NRC staff described the overall license renewal process, provided a description of the National Environmental Policy Act of 1969 review process, and discussed the environmental requirements outlined in Title 10 of the *Code of Federal Regulations* Part 51 (10 CFR Part 51). The NRC staff also described the preliminary results of their analyses. The environmental impacts of continued operation were predicted to be small in all areas. The impacts of alternatives (including the no-action alternative) were predicted to have impacts in at least some environmental aspects that could reach moderate or large significance.

After the formal presentations were given by the NRC and LLNL staff, members of the public were invited to provide comments. Approximately 22 people attended the two sessions. Attendees included members of the public, representatives of the NRC and Constellation, and the media.

In an effort to improve communication and increase interaction with members of the public, the NRC staff conducted open houses for one hour before each meeting and encouraged the public to submit meeting feedback forms. The staff provided displays and brochures and met with members of the public to answer questions about the proposed renewal of the NMP operating licenses.

Attachment 1 is a combined list of attendees for both sessions. Attachment 2 is a copy of the handouts distributed at the meetings, which include the agenda and the open house information sheet. Attachments 3 and 4 contain the official corrected transcripts for the afternoon and evening meetings, respectively. Attachment 5 is a copy of the NRC presentation slides.

The closing date to accept comments on the NMP DSEIS is December 22, 2005. The NRC staff will consider all comments on the NMP DSEIS and make any necessary revisions to the document prior to issuing its final supplemental environmental impact statement, scheduled for June 2006.

To be considered, comments must be provided either at the transcribed public meetings (see agenda, above) or in writing, as described in the attached *Federal Register* notice.

Welcome to the NRC's Open House
Associated with the Environmental Review for the proposed
License Renewal of Nine Mile Point Nuclear Station, Units 1 and 2

This open house is intended to provide an opportunity for interested members of the public and staff from other Federal, State, and local agencies to interact with the NRC staff in an informal information exchange.

The NRC is gathering information necessary to prepare an Supplemental Environmental Impact Statement (SEIS) to the Generic Environmental Impact Statement (GEIS) for License Renewal of Nuclear Plants, regarding the proposed renewal of the operating licenses for Nine Mile Point Nuclear Station, Units 1 and 2. Please note that if you wish to provide formal comments regarding the draft Supplemental Environmental Impact Statement (DSEIS) to the GEIS, they must be presented at today's transcribed public meeting, or provided in writing or by e-mail by December 22, 2005. Comments received after this date will be considered if it is practicable to do so, but the NRC staff is able to assure consideration only for comments received on or before this date. Written comments on the DSEIS should be sent to:

Chief, Rules and Directives Branch
Division of Administrative Services
Office of Administration
Mailstop T-6D 59
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555-0001

Comments may be hand-delivered to the NRC at 11545 Rockville Pike, Rockville, Maryland, between 7:45 a.m. and 4:15 p.m. on Federal workdays. Submittal of electronic comments may be sent by e-mail to the NRC at NineMilePointEIS@nrc.gov.

Thank you for your participation.
