

**UNITED STATES
NUCLEAR REGULATORY COMMISSION**

REGION III
2443 WARRENVILLE ROAD, SUITE 210
LISLE, ILLINOIS 60532-4352

NOV 07 2005

James Deering, D.O.
Radiation Safety Officer
Mid-Michigan Physicians, P.C.
Suite 460
1200 E. Michigan Avenue
Lansing, MI 48912

Dear Dr. Deering:

Enclosed is Amendment No. 01 to your NRC Material License No. 21-32527-01 in accordance with your request. Please note that the changes made to your license are printed in **bold font**.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please note that Dr. Messina is authorized for 35.200 only and not 35.100 or 35.300 material as requested. This is because your NRC license does not authorized 35.100 or 35.300 and your letter received October 19, 2005, did not request these materials. If you wish to add these materials in the future, you may request an amendment to your NRC license by addressing the appropriate sections in NUREG 1556, Vol. 9, Rev. 1 and if you are an out patient clinic only, please address how you will comply with 10 CFR 35.75. In addition, please be advised that your new facility is required to be equipt as specified in previous applications and letters referenced in License Condition No. 15 of your NRC license.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. The enclosed license document is exempt from public disclosure in accordance with 10 CFR 2.390, because its disclosure to unauthorized individuals could present a security vulnerability.

J. Deering, D.O.

2

Sincerely,

James R. Mullauer, M.H.S.
Health Physicist
Materials Licensing Branch
