Subject: VY EPU Final EA

Rani,

I'm working on preparation of the final EA for the Vermont Yankee EPU including incorporation of comments on the draft EA from Entergy and the Connecticut River Watershed Council (CRWC).

Attached are both sets of comments *ML053500122 and ML053500124* and my first draft of the final EA. See the "SUMMARY" portion of the final EA on how I've resolved the comments thus far.

At this point, all I'm looking for from REBB is some help on resolution of the third comment from the CRWC regarding the dwarf wedge mussel and tessellated darter.

I plan to route the final EA thru you for concurrence after you provide the input. I'll provide a redline/strikeout at that time so you can see other changes I made since the draft.

Please let me know who will be working on this and what schedule your branch can support.

thanks,

Rick
