RE: License #37-11866-01 03003151

To Whom It May Concern:

Lancaster General Hospital requests amendment of its materials license as indicated in detail by the item below:

Donald Velkley, Ph.D., who is listed on our license as an authorized user of Cs-137 for calibration purposes and as an authorized medical physicist, has left active practice at our facility. As such, his name should be removed from our license.

Thank you for your assistance in this matter. If you have need of any further information, please contact our Radiation Safety Officer, Anthony Montagnese, at 717-544-4384.

Sincerely,

Kathleen L. Harrison
Vice President/Chairperson of Radiation Safety Committee
