Subject: License Amendment Request for Extension of Time to Fundamental Nuclear Material Control Plan Commitments for SNM-1168 (Docket 70-1201).

Enclosure: (1) Details of affected shipments

Dear Mr. Gleaves,

Framatome ANP – Mt. Athos Road Lynchburg facility requests a 60 day extension from Fundamental Nuclear Material Control Plan (FNMCP) requirements for the completion of the computation of Shipper Receiver Difference (SRD) for the shipments shown in enclosure (1). This extension is required due to delays encountered by our off-site contractor laboratory. As a result, sample analysis results will not be available before expiration of the time normally allowed in the FNMCP.

Should you have any questions, please do not hesitate to contact me at 434-832-5276.

Sincerely,

Charlie Holman
