Dear Mr. Anton:

By application dated September 16, 2003, as supplemented by the letter dated March 23, 2004, Holtec International (Holtec) requested approval of an amendment to Certificate of Compliance No. 71-9261, Revision 2, for the HI-STAR 100 Transportation Cask System. On April 23, 2004, the U.S. Nuclear Regulatory Commission (staff) issued a request for additional information (RAI). On July 27, 2005, Holtec provided responses to the RAI. During the review and evaluation of the RAI responses, the staff needed additional clarification. On November 21 and 28 and December 5 and 12, 2005, four telephone calls were held with Holtec to discuss these clarifications. During these telephone calls, Holtec agreed to the actions listed in the enclosure.
