Some considerations for assigning privileges:

Certifying Official and Designee(s) will be granted Privilege A, authority to certify that the ICR complies with 5 CFR 1320.9 and submit an ICR to OIRA.

Unless otherwise noted by you, if one is granted Privilege A, the lesser Privileges B and C apply as well.

All three of the above privileges include rights to view and download Notices of Action, run reports, and perform searches.

ICR preparation privileges (Privilege B) should be limited to your agency's PRA professionals rather than program subject matter content contacts.

Privilege C is intended for those individuals who are part of your agency's ICR review process prior to submission to OIRA. Pending and concluded actions will be viewable by program subject matter content contacts at the public website, RegInfo.gov.
