Betsy Ullrich, Senior Health Physicist
Division of Nuclear Material Safety, Region I
U.S. Nuclear Regulatory Commission
475 Allendale Road
King of Prussia, PA 19406-1415

Dear Ms. Ullrich:

The New Jersey Department of Environmental Protection's (NJDEP) Bureau of Environmental Radiation (BER) reviewed the December 7, 2005 DRAFT document: (Docket No. 030-05222) *Environmental Assessment Related to Issuance of a License Amendment of the U.S. Nuclear Regulatory Commission Materials License No. 29-00139-02, Issued to E. R. Squibb and Sons in Hamilton, New Jersey*

The results of the fixed and removable contamination surveys indicate levels at or near background which comply with the Department's remediation criteria of 15 mrem/y (N.J.A.C. 7:28-12.8(a)).

The BER agrees with the Nuclear Regulatory Commission's Environmental Assessment conclusion that a Finding of No Significant Impact is appropriate for the proposed action to amend Materials License No. 29-00139-02 and release the facility at Three Hamilton Health Place, Hamilton, New Jersey for unrestricted use.

Thank you for giving us the opportunity to comment on this Environmental Assessment. Please contact Ed Truskowski at (609) 984-5542, if you have any questions.

Sincerely,

Patricia Gardner
Chief, Bureau of Environmental Radiation
