Point Beach Nuclear Plant, Units 1 and 2  
Docket Nos. 50-266 and 50-301  
License Nos. DPR-24 and DPR-27

Supplement to 60-Day Response to Bulletin 2003-01, "Potential Impact of Debris Blockage on Emergency Sump Recirculation at Pressurized-Water Reactors"

- References:
- 1) Letter from NMC to NRC dated August 8, 2003 (NRC 2003-0068)
  - 2) Letter from NMC to NRC dated May 14, 2004 (NRC 2004-0050)
  - 3) Letter from NMC to NRC dated August 19, 2005 (NRC 2005-0106)
  - 4) Letter from NMC to NRC dated October 18, 2005 (NRC 2005-0134)

In Reference 1, Nuclear Management Company, LLC (NMC), provided the 60-day response to Bulletin (BL) 2003-01, "Potential Impact of Debris Blockage on Emergency Sump Recirculation at Pressurized-Water Reactors", for the Point Beach Nuclear Plant (PBNP). References 2 through 4 supplemented the response.

Evaluation of degraded coatings in the PBNP Unit 2 containment necessitates that the NMC 60-day response to Bulletin 2003-01 be supplemented to include new information learned as a result of this issue. It is anticipated the supplement will be submitted by January 21, 2006.

A103

Summary of Commitments

This letter contains one new regulatory commitment as follows:

NMC will supplement the 60-day response to NRC Bulletin 2003-01 by January 21, 2006.
