ATLANTA, GEORGIA 30303-8931

December 29, 2005

Duke Energy Corporation  
ATTN: Mr. Ronald A. Jones  
Vice President  
Oconee Site  
7800 Rochester Highway  
Seneca, SC 29672

SUBJECT: PUBLIC MEETING SUMMARY - REMEDIATION OF DEGRADED REACTOR  
BUILDING COATINGS - OCONEE NUCLEAR STATION (ONS) - DOCKET  
NOS. 50-269, 50-270, 50-287

Dear Mr. Jones:

This refers to the meeting conducted at your request at the Region II Office on December 20, 2005, at 10:30 a.m. The meeting's purpose was to discuss your plans for remediation of degraded reactor building coatings. Enclosed is a list of attendees and the presentation handouts.

It is our opinion that this meeting was beneficial in that it provided the NRC staff with the opportunity to discuss your reactor building coatings remediation plans. Topics covered included a review of containment coating related activities during the most recent outage (2EOC21), a discussion of the current status of containment coating in each unit at ONS, and a discussion of long range plans to address degraded containment coatings. We acknowledge your commitment to address containment coating problems during subsequent outages at the three ONS units and to complete your commitments to Generic Letter 2004-02 by the end of 2007.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).
