

Docket no. 70-36

SEP 11 1992

Mrs. Martha Dodson

[

]

Ex. 6

Dear Mrs. Dodson:

In response to your request we have enclosed copies of 7 documents that reference operations at Combustion Engineering's Hematite facility. The staff was very pleased to meet with you and your son, at your home, on September 3, 1992, and discuss your concerns about Hematite operations.

By now you should have received a letter from the NRC Program Manager providing you with the details for setting up a Local Public Document Room (LPDR). Now that the initial steps are completed, a LPDR should be available in your area in the near future.

If you have any questions concerning our discussion, please feel free to contact me or George M. France, III, of my staff at (708) 790-5500.

Original Signed by Roy J. Caniano

Roy J. Caniano, Acting Chief  
Nuclear Materials Safety Branch

Enclosures: As stated

cc w/o enclosures:  
John W. N. Hickey, NMSS  
Michael Tokar, NMSS  
Jona L. Souder, LPDR Program Manager
