Subject: Programmatic Review of Conference Paper

Dear Mrs. DeMarco:

The enclosed conference paper along with Form 390A is being sent for programmatic review. The paper will be submitted for presentation at the International High-Level Radioactive Waste Management Conference, April 30–May 4, 2006, in Las Vegas, Nevada. The title of the paper is “Fluvial Redistribution of Contaminated Tephra: Process-Level Modeling and Parameter Estimation,” authored by D. Hooper and R. Benke.

The paper discusses how process-level modeling may be used to support the fluvial redistribution modeling for the Total-system Performance Assessment code through the determination of values for its input parameters. The abstracted model component for fluvial redistribution is described in a separate paper to be submitted to the same conference.

Please advise me of the results of your programmatic review.

Washington Office • Twinbrook Metro Plaza #210
