Operating Officer

DEC 14 1989

Asea Brown Boveri, Inc.  
ATTN: Mr. Klaus Agthe  
President and Chief  
Executive Officer  
900 Long Ridge Road  
P. O. Box 9308  
Stamford, Connecticut 06904

Gentlemen:

I am responding to your letter to me dated November 21, 1989, in which you request NRC consent of a proposed business transaction whereby Combustion Engineering, Inc., will become a wholly owned subsidiary of Asea Brown Boveri, Inc.

As noted in the attachment to your letter, you have requested the Executive Director for Operations to grant any consent that may be required with respect to any indirect transfer of control of NRC licenses that may occur in connection with the proposed business transfer.

Because of the nature of the request, which affects many areas within the Commission, a single determination on the requests will be provided by the Executive Director for Operations. Therefore, consent for those activities which come under the jurisdiction of the Office of Nuclear Material Safety and Safeguards will be included in the response from the Executive Director for Operations.

Sincerely,

(Signature of Robert M. Bernero)

Robert M. Bernero, Director  
Office of Nuclear Material Safety  
and Safeguards
