Hematite Fuel Manufacturing
P.O. Box 107
Hematite, MO 63047

Gentlemen:

In August 1989, Oak Ridge Associated Universities (ORAU) conducted an analysis on four limestone samples collected by Combustion Engineering (CE). Please provide the location where the samples were obtained and CE's results for the samples. The identification numbers for the samples are 82, Q15, 201, and 246. Upon receipt of this information, we will continue the review of your request to have the limestone released for use as unrestricted area fill material.

Sincerely,
