Subject: (NOTE: This will be used as the Documents Title in ADAMS)	Request for time extension	
Summary:	<p>Dr. Graham called to request more time so that the response to my Request for Additional Information could be completed. I replied that I could give them to January 16, 2006. Dr. Graham indicated that he could complete the response in that amount of time but that he required direction on the response for question 3. After reviewing the question and the requirements, it was decided that a response for line item 3 was not required because no special sources were covered under the broad scope authorization. There are a number of line items that they want authorization for but have never possessed. These items could remain open but the licensee must write down which ones they are. Once the licensee determines a supplier, then the licensee must amend the license for the manufacturer's name and model number. Line item 11 in the application refers to a Troxler moisture density gauge. I informed Dr. Graham that we are no longer allowed to authorize the source in the generic format currently written. Dr. Graham consented to provide the information on the gauge's sealed source.</p>
