Subject: (NOTE: This will be used as the Documents Title in ADAMS)	Clarification of changes in use areas.	
Summary:	I spoke with Ms. Chamberlain about the amendment request submitted December 12, 2005. Ms. Chamberlain stated that it was the intention of the licensee to move the hot laboratory to a constructed room within the imaging room and to convert the old hot laboratory into a triage room. She further stated that there would be no use of radioactive material in the triage room. I informed Ms. Chamberlain that I would be issuing the amendment to the license permitting the transfer of licensed activities to the new hot laboratory once it is constructed. Then the licensee would be required to perform a close-out survey of the old hot laboratory and submit an amendment request to remove the old hot laboratory as a location of use. The close-out survey should have the instruments used for the survey and the results of the survey. I thanked Ms. Chamberlain for the information.
