Dear Mr. Vaughan:

Thank you for your interest in the draft License Termination Rule (LTR) Analysis implementation guidance, published in our draft NUREG-1757, Supplement 1. We received your comments (submitted to Decomcomments@nrc.gov), dated December 30, 2005, which included a request to extend the public comment period for this document.

The draft Supplement 1 was published for public comment at the end of September 2005. We understand the time it takes to review documents; however, we believe that the three-month public comment period is sufficient. In order to meet our schedule for finalizing the guidance, we are not extending the public comment period.

We thank you for the comments you already submitted and we are interested in your other comments on this guidance. Thus, we will consider comments received after the public comment period, but only to the extent practical. Therefore, we urge you to submit your other comments as soon as feasible, because the sooner we receive your comments, the more likely we can fully consider them.

If you have further questions, please feel free to call or e-mail us.

Sincerely,

Duane and Kris,

Duane Schmidt, 301-415-6919, dws2@nrc.gov
