January 10, 2006

Mr. Mark A. Gilbertson
Deputy Assistant Secretary
Environmental Cleanup and Acceleration, EM-20
Office of Environmental Management
U.S. Department of Energy
1000 Independence Avenue, S.W.
Washington, D.C. 20585

SUBJECT: REQUEST FOR ADDITIONAL INFORMATION ON THE DRAFT SECTION 3116 DETERMINATION FOR IDAHO NUCLEAR AND ENGINEERING CENTER TANK FARM FACILITY (DOE/NE-ID-11226)

Dear Mr. Gilbertson:

The U.S. Nuclear Regulatory Commission staff has reviewed the "Draft Section 3116 Determination Idaho Nuclear Technology and Engineering Center Tank Farm Facility," dated September 7, 2005, and the associated documentation provided by the U.S. Department of Energy (DOE). We have attached a request for additional information (RAI), which is a list of questions that require a response by DOE in order to complete our review.

Full responses to all of the RAI questions are essential to allowing the NRC staff to complete its review in a timely manner. In order to meet the current schedule, DOE's responses to the RAI are needed on or before March 13, 2006. As we continue our review of DOE documents and RAI responses, we may develop additional comments for which we will require DOE response. If it would be useful to DOE, we would be happy to meet with your staff to discuss our RAI or your responses. If you have any questions, please contact me at (301) 415-6717.

Sincerely,
/RA/

Scott Flanders, Deputy Director
Environmental and Performance Assessment Directorate
Division of Waste Management
and Environmental Protection
Office of Nuclear Material Safety
and Safeguards

Attachment: Request for Additional Information

cc: Keith Lockie, DOE-ID
Ken Picha, DOE-EM
