6220 Culebra Road  
San Antonio, TX 78228-0510

SUBJECT: EXCHANGE OF DR. ALLEN H. FETTER BETWEEN THE U.S. NUCLEAR  
REGULATORY COMMISSION AND THE CENTER FOR NUCLEAR WASTE  
REGULATORY ANALYSES

Dear Dr. Sagar:

This letter expresses the Nuclear Regulatory Commission's (NRC's) desire to have Dr. Allen H. Fetter participate in a rotational assignment at the Center for Nuclear Waste Regulatory Analyses (CNWRA). Dr. Fetter plans to collaborate with CNWRA staff on flow and transport modeling, and discuss potential proactive colloids work with both Center and NRC staff. During the exchange Dr. Fetter will also participate in a Mega-Meeting of all the Integrated Sub-Issue (ISI) Teams, and attend the annual CNWRA review. This assignment has been scheduled for October 30, 2005 through November 17, 2005. The enclosure contains information supporting Dr. Fetter's assignment.

NRC believes the proposed personnel exchange will greatly benefit Dr. Fetter, the CNWRA, and NRC. It is NRC's understanding that the subject of Dr. Fetter's participation in the proposed exchange has been discussed and approved in principle in several exchanges between cognizant CNWRA and NRC management. Therefore, your approval of this exchange is requested. If agreed, please sign and date, as indicated below, and return the original signed copy of this letter to me.

Sincerely,

  
Deborah A. DeMarco, Program Manager  
Program Management, Policy Development and  
Analysis Staff  
Office of Nuclear Material Safety and Safeguards

Enclosure: As stated

Approved:
