Olympia, WA 98504-7827

Dear Mr. Frazee:

We have reviewed the proposed revisions to the Washington Administrative Code (WAC), Chapters 246-220 and 246-240, received by our office on December 8, 2005. These regulations were reviewed by comparison to the equivalent Nuclear Regulatory Commission (NRC) rules in 10 CFR Part 35 and the requirements of the 2 amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with Mr. Arden Scroggs on December 15, 2005.

As a result of our review, we have one comment that has been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. We have determined that if these regulations are revised, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200.

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in STP Procedure SA-201, "Review of State Regulatory Requirements," please highlight the location of any changes made by Washington, in response to our comment and provide a copy to STP.

The SRS Data Sheet summarizes our knowledge of the status of other Washington's regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP website: <http://www.hrsd.ornl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the review results, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me, or Mr. Osiris Siurano at 301-415-2307 or by e-mail at [osp@nrc.gov](mailto:osp@nrc.gov).

Sincerely,
