Office of Nuclear Material Safety and Safeguards, NMSS
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Dear Mr. Brach:

Subject: Request for Special Package Authorization for the LACBWR Reactor Pressure Vessel Package

Duratek, Inc. respectfully submits the attached proprietary document concerning the La Crosse Boiling Water Reactor (LACBWR) Reactor Pressure Vessel Package (RPVP). Duratek requests that this document be withheld from public disclosure under the provisions of 10 CFR 2.390. The document presents detailed calculations which form the basis of the structural evaluation in the Safety Analysis Report of the LACBWR RPVP submitted by Duratek. Included is an affidavit, as stipulated in 10 CFR 2.390, providing the reason for withholding this document.

Also included is a CD containing a Power-Point presentation of the drop analysis described in the attached calculation. This presentation is provided as additional information to assist the reviewers in evaluating the drop analysis. The presentation is not proprietary.

There are three attachments to this letter. Each attachment is listed below:

- Attachment 1 AFFIDAVIT CONCERNING CONFIDENTIAL INFORMATION AND TRADE SECRETS
- Attachment 2 Proprietary Calculation – ST-517: Structural Analyses of the LACBWR RPV Package Under Various Drop Scenarios
- Attachment 3 CD – Power-Point Presentation of Drop Analysis

Should you or members of your staff have questions about the request, please contact Mark Whittaker at (803) 758-1898.

Sincerely,

Patrick L. Paquin
General Manager – Engineering & Licensing
