Dear Mr. Strosnider:

Reference 1 submitted changed pages to the Fundamental Nuclear Material Control Plan (FNMCP) to address miscellaneous items noted during USEC Inc.'s (USEC) review. An administrative error has been discovered with the page numbering of this document; therefore, USEC hereby re-submits to the U.S. Nuclear Regulatory Commission (NRC) changed pages for the FNMCP as Enclosure 1 of this letter. Revision bars in the right hand margin depict changes from the previous version submitted to the NRC.

Enclosure 1 contains USEC Proprietary Information and USEC requests that this enclosure be withheld from public disclosure pursuant to 10 *Code of Federal Regulations* (CFR) 2.390(d)(1). Also, this enclosure has been determined, in accordance with the guidance provided by the U.S. Department of Energy, to contain Export Controlled Information. This information must be protected from disclosure per the requirements of 10 CFR Part 810.
