SUBJECT: Meeting with Westinghouse Electric Company LLC to Discuss the Hematite
Decommissioning Plan Deficiencies and Decommissioning Path Forward

DATE & TIME: Wednesday, January 25, 2006 8:00 a.m. - 2:00 p.m.

LOCATION: U.S. Nuclear Regulatory Commission (NRC), Headquarters
One White Flint North
Room: Commissioner Hearing Room
11555 Rockville Pike
Rockville, MD 20852-2738

PURPOSE: Westinghouse Electric Company LLC (WEC) submitted its comprehensive
Decommissioning Plan (DP) for the Hematite Facility in September 2005, with
supplemental information in October 2005 and December 2005. Staff
conducted a 90-day acceptance review using the Consolidated NMSS
Decommissioning guidance (NUREG-1757) and a limited technical review in
accordance with DWMEP Decommissioning Directorate procedures. On
January 05, 2006 staff of the Division of Waste Management and
Environmental Protection (DWMEP) informed WEC that the DP for its Hematite
Missouri Facility was inadequate and was not being accepted by the DWMEP
staff. The purpose of this meeting is to discuss the Hematite Decommissioning
Plan deficiencies and decommissioning path forward. At the request of
Westinghouse, there will be an attorney to attorney closed discussion that will
focus on reviewing the requirements of the "Timeliness in Decommissioning of
Material Facilities" rule (59 FR 36026-36040, July 15, 1994) (hereafter
Timeliness Rule). The Timeliness Rule requirements are presented in 10 CFR
30.36, 40.42, 70.38, and 72.54. At this meeting, licensing or exemptions
decisions will not be made by the staff.

CATEGORY: The morning meeting is a Category 1 Meeting that will be open for observation.
The NRC's Policy Statement, "Enhancing Public Participation in NRC
Meetings," effective May 28, 2002, applies to this meeting. The policy
statement may be found on the NRC Web site at <http://www.nrc.gov/public-meetings/v67n102p36920.pdf> and contains information regarding visitors and
