Re: Nuclear Medicine License No.: 37-20624-01

Ms. Henderson,

This will supplement our correspondence of January 9, 2006. As you know, we reported that Brownsville General Hospital t/d/b/a TARA Hospital at Brownsville has closed. We spoke today today to Mr. Ragland at NRC who indicated that we should update you.

Due to a possibility that the hospital may attempt to reopen, he suggested that we keep NRC advised that the radiological materials will be kept here secured in place.

If you have any questions, please contact us at 724-785-1703.

By copy of this letter, we are also notifying the Pennsylvania Department of Environmental Protection Bureau of Radiation Protection of this update.

Very truly yours,

Harry Hamm
Chief Executive Officer

HC/gm
