**RE: Remediation Schedule  
Former Westinghouse Lamp Manufacturing Plant  
Bloomfield, New Jersey  
License No. SMB-1527**

Dear Mr. Roberts:

CBS Corporation, formerly Westinghouse Electric Corporation, will complete the demolition of Buildings 7 and 8 this month. The basement of Building 7 will be available for inspection.

As outlined in the July 9, 1999 letter to you CBS intends to remove the impacted material from the basement of Building 7 and impacted sewer pipes. The objective of this remediation is to allow unrestricted release of the property. CBS will use the existing site-specific criteria for unrestricted release.

Unless otherwise directed by the USNRC, CBS expects to perform this work beginning October 25, 1999.

In closing, CBS appreciates your continuing efforts to help us resolve the remaining issues at the facility. Please call either of us if you have any questions.

Sincerely,

Richard K. Smith  
Director,  
Environmental Remediation

Kenneth J. Bird, CIH  
Radiation Safety Officer
