**RE: Clarification-License Renewal**  
**License No. SMB-1527, Docket No. 040-08976**  
**Bloomfield, New Jersey- CBS Corporation**

Dear Licensing Assistance Team,

CBS Corporation has received the Nuclear Regulatory Commission (NRC) letter dated March 19, 1999 authorizing demolition of Buildings 7 and 8. As referenced in this letter, building demolition will allow post demolition access to radiologically impacted soil in the basement of Building 7 per CBS's October 15, 1998 letter. Based upon discussions at the property with Mr. Mark Roberts, NRC Senior Health Physicist, on March 4, 1999, CBS is not required by the NRC to provide future access to trenches in the first floor of Building 7. These trenches have been released for unrestricted use and will be filled to floor level. This is a change to the condition listed in our October 15, 1998 letter.

If the above information does not agree with the NRC position or understanding on the post demolition status of Building 7, 1<sup>st</sup> floor trenches, please contact me immediately at 412-642-3287. CBS expects to begin the demolition of Buildings 7 and 8 shortly.

Sincerely,

Richard K. Smith  
Director, Environmental Remediation

Kenneth J. Bird  
Radiation Safety Officer

cc Mr. Mark Roberts, NRC-Region I  
Mr. Steve Myers, NJDEP
