**RE: SAMPLING NOTIFICATION
BLOOMFIELD, NEW JERSEY FACILITY - ISRA CASE NO. 86070
CBS CORPORATION**

Dear Mr. Myers:

CBS Corporation is hereby notifying the New Jersey Department of Environmental Protection that soil sampling will begin on March 15, 1999. Installation of monitoring wells will also begin this week. The tasks to be performed are as previously agreed upon with the NJDEP.

As you are aware, some tasks will not be able to be performed until Buildings 7 and 8 are razed. At this time we do not have a release from the NRC for building demolition. However, CBS has elected to proceed with other tasks to speed up the completion of the ISRA process and property redevelopment. The groundwater recovery system will be temporally shutdown during monitoring well installation.

Please contact me if you have any questions regarding this notification or tasks to be performed.

Sincerely,

Kenneth J. Bird
Project Consultant/Engineer
