RE: Final NRC Inspection and Release
Westinghouse Bloomfield Lamp Plant Property
License #SMB-1527

Dear Mark:

The removal of asbestos-containment materials (ACM) from Buildings 7 and 8 at our former Bloomfield Lamp Plant site will be completed the week of August 11. As discussed in more detail in our May 29, 1997 letter to you, Westinghouse has budgeted for, and would like to complete, the demolition of these buildings this year. Demolition will require several months. However, as you know, the NRC must complete its final over-inspection of these buildings prior to beginning the demolition. Therefore, we are again requesting that the NRC schedule this inspection as soon as possible. Please call Wayne Bickerstaff at (412) 642-3880 or Bo Bowman at (412) 722-5755 to coordinate the scheduling of this inspection.

Sincerely,
