Dear Dr. Fraiberg:

Enclosed is Amendment No. 58 to your NRC Material License No. 21-02802-03 in accordance with your request. Please note that the changes made to your license are printed in **bold font**.

**Please note that the physicians listed in Items 1 & 2 of your request were not added to your license. More information concerning their training and experience is needed. If you wish to pursue adding these physicians to your license please review 10 CFR 35.290 and 35.390 effective as of April 29, 2005 and complete Parts I and II of the current NRC 313A form. The most current NRC 313A form can be found on our website at [www.nrc.gov](http://www.nrc.gov). Also additional information is needed for the physician discussed in Item 3 of your request. If you wish to pursue adding Dr. Stoffer to your license, please provide information discussed in 10 CFR 35.290(c)(1)(ii)(G) and an updated Part II of the NRC Form 313A.**

Because you used the wrong mailing address, your letter requesting this amendment did not arrive in this office until November 9, 2005. In the future please use the mailing address stated at the top of this letter.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. The enclosed license document is exempt from public disclosure in accordance with 10 CFR 2.390, because its disclosure to unauthorized individuals could present a security vulnerability.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

A handwritten signature in cursive script, appearing to read "Toye L. Simmons".
